Garden Education
Learn how to grow food with us! From adult classes to kids camps to school tours, we have been teaching people of all ages to grow food organically for nearly four decades.

Farm Education
With Farm Walks and an annual conference, we offer farmer to farmer education around Washington State. Immigrants, refugees and low-income individuals develop small farm businesses through Seattle Tilth Farm Works. Underserved youth learn job and leadership skills through Seattle Youth Garden Works. FarmLink connects people seeking farmland with landowners.

Environmental Education
Gain expertise in composting and recycling… then teach others! Join training programs in Seattle, South King County and Eastside. Or participate in wetlands restoration at Rainier Beach Urban Farm.

Cooking & Nutrition Education
We bring people together to cook and share meals in their own neighborhoods — at schools, community centers and churches. Find out about Community Kitchens Northwest on our website.

Puget Sound Fresh
Discover what’s in season and where to get it with our multimedia guide to Puget Sound farms, produce and products. Visit pugetsoundfresh.org.

Food Hub
We grew 66,000 pounds of food in 2015 at our educational farms and gardens. We partnered with local farmers to feed people through our CSA, farmers markets, food banks, subsidized Good Food Bags, restaurants and grocery stores. Consider joining our CSA!

DIG IN, GET INVOLVED!

Garden Hotline
Ask us your garden questions! The Garden Hotline offers individualized solutions to your garden problems.
(206) 633-0224 // help@gardenhotline.org

Volunteering
Gain skills while giving back to the community when you join 1700 other volunteers in our gardens and farms, events, classes, camps and office!
seattletilth.org/get-involved/volunteer

Support
All gifts are welcome and appreciated! Members receive discounts on conferences and classes, invitations to exclusive member events, a bi-monthly print newsletter and a vote for our Board of Directors.
seattletilth.org/support
Veggie Gardening
Eating fresh veggies and herbs that you grow yourself is a thrill! Learn how to get the best results using organic methods – healthy for you and the environment.

Grow Great Tomatoes
- Saturday, May 7; 10 a.m.-noon, GSC
Get ready to grow the biggest and tastiest tomatoes, peppers and other heat-loving crops! Fresh tomatoes and peppers are some of the most delicious veggies, but they can be tricky to grow in our cool summers. This class will teach you everything you need to know to grow the biggest, earliest and most flavorful summer crops. Learn about which varieties do well in our maritime climate, when to plant, and season extension techniques to maximize heat. Other topics include fertilization, watering, harvesting, trellising and pruning.
$36 INDIVIDUALS, $25 SEATTLE TILTH MEMBERS, $54 HOUSEHOLD PRICE FOR TWO ADULTS

Drip Irrigation for Home Gardeners*
- Saturday, May 14; 10 a.m.-noon, GSC
Learn how easy it is to water your garden with resource-efficient drip irrigation! Even though our Pacific Northwest maritime climate is known for its rain, during the droughty summer we still need to water our food crops, thirsty ornamentals and container gardens. This class will cover the basics of drip irrigation system design and use in a home garden, including water requirements, zones, parts, installation, scheduling, winterizing, troubleshooting and soaker hoses. This class pairs well with Water Catchment: Harvest the Rain offered later in the afternoon. Sign up for both classes for a full day of learning and receive a discount!*
$36 INDIVIDUALS, $25 SEATTLE TILTH MEMBERS, $54 HOUSEHOLD PRICE FOR TWO ADULTS

Container Gardening 101
- Wednesday, May 18; 6-8 p.m., GSC
You don’t need a backyard to grow your own food! Container gardening is great for beginners, apartment dwellers and anyone looking to add extra space or variety to their garden. This class will cover the benefits of growing in containers, choosing soil, containers and locations. Learn about considerations for growing crops like herbs, salads, small fruits and summer veggies and ongoing maintenance of your container garden. This class is lecture-based with participatory demonstration in the learning garden.
$36 INDIVIDUALS, $25 SEATTLE TILTH MEMBERS, $54 HOUSEHOLD PRICE FOR TWO ADULTS

Outsmart Pests: Organic Pest Management*
- Saturday, May 21; 2-4 p.m., BGP
Now that your garden is growing, all you have to do is sit back and watch, right? But wait, what’s eating holes in your broccoli? What should be done about all of those weeds? Why are your tomatoes brown? Come learn how to avoid chemicals by using organic practices to manage pest bugs, weeds and diseases. Learn the art and science of attracting beneficial bugs to pollinate your crops and eat harmful insects that damage your veggies. In this class we will discuss the Integrated Pest Management (IPM) system and what it means for organic gardeners, meet some common garden pests and weeds and safe solutions for managing them, go on a bug hunt in the garden to identify good and bad bugs, and get resources to help you continue problem solving pests in your own backyard.
$36 INDIVIDUALS, $25 SEATTLE TILTH MEMBERS, $54 HOUSEHOLD PRICE FOR TWO ADULTS
*$65 FOR BOTH SECRETS OF COMPANION PLANTING (PAGE 7) AND ORGANIC PEST MANAGEMENT

Urban Livestock
Taking care of animals and keeping them healthy requires knowledge and preparation. Take a class and gain a solid foundation. You will love the fresh, delicious, home-grown products and caring for your new friends!

Raise City Goats
- Saturday, June 4; 10 a.m.-noon, private residence in Seattle
Learn what it takes to keep miniature goats for milk or fiber. Jennie Grant, author of City Goats and founder of the Goat Justice League, will show you around her goat yard so you can see the gregarious “kids” in action! Participants will leave the class with the basic information needed to decide if being an urban goat-herder is right for you. Learn the basics of keeping mini-goats including selecting breeds, city regulations, feeding, breeding, milking and keeping your herd healthy.
$36 INDIVIDUALS, $25 SEATTLE TILTH MEMBERS, $54 HOUSEHOLD PRICE FOR TWO ADULTS

Beekeeping 301: Harvest Honey and Winterize Your Hive
- Saturday, July 23; 10 a.m.-noon, GSC
- Saturday, August 13; 10 a.m.-noon, GSC
Learn how to harvest honey and prepare your beehives for winter. This third installment of our Backyard Beekeeping series is perfect for beginner beekeepers working on their first hives as well as intermediate beekeepers looking to gain more skills. Topics will include late summer and fall hive management, queen evaluation and colony manipulation, what you need to do to get your hives through winter, feeding, harvesting honey and equipment storage.
$36 INDIVIDUALS, $25 SEATTLE TILTH MEMBERS, $54 HOUSEHOLD PRICE FOR TWO ADULTS

CSI Bees: WildBeeSense Biodiversity Project
- Saturday, July 30; 9-11:30 a.m., BGP
Join Elias Bloom, a WSU pollinator entomologist, in our citizen science initiative that explores the relationship between plants, pollinators and the tools we can use to save these precious organisms. Class attendees will receive a free guide on how to identify and observe wild bees, hands-on instruction in pollinator identification and monitoring, and the skills necessary to join a growing network of local bee observers that seek to conserve and restore bees in Washington State.
FREE, PRE-REGISTRATION REQUIRED

Start Your Fall and Winter Garden
- Saturday, July 9; 10 a.m.-noon, GSC
- Thursday, July 28; 6:30-8:30 p.m., BGP
- Saturday, August 20; 10 a.m.-noon, MP
Mid-summer is the perfect time to start planning your fall and winter garden so that you can keep eating fresh vegetables all year. For fall and winter harvests, it’s important to get seeds and starts into the garden early enough to allow them growth while the sun is still shining. A little planning and effort now will pay off deliciously during the dark days of winter! In this class we will discuss overwintering veggies and hardy greens that can be harvested throughout the fall and winter. We will also learn about choosing appropriate seeds and starts and where to get them, germinating seeds in hot summer weather and using season extension devices throughout the cold season.
$36 INDIVIDUALS, $25 SEATTLE TILTH MEMBERS, $54 HOUSEHOLD PRICE FOR TWO ADULTS
**Kitchen**

Discover the full potential of your garden by learning new techniques to prepare and preserve your harvest.

---

**Seattle Tilth’s Food Preservation Certification Course**

- Saturdays, June 4-July 2; 10 a.m.-5 p.m., GSC
- Saturdays, June 4-July 2; 10 a.m.-5 p.m., GSC

Yes we can! Learn to preserve your own food safely and become certified by Seattle Tilth to share your skills. Seattle Tilth’s Food Preservation Certification Course provides participants with the knowledge and skills needed to learn all about safe method for canning and food preservation -- and teach others. This intensive training provides an overview of food preservation history and food safety, USDA guidelines for safely canning different types of food, an introduction to fermentation and specialty products, best practices for freezing, dehydrating and pickling, hands-on practicums for learning preservation techniques, and opportunities for you to practice teaching others in class. Leave equipped with the knowledge you need to preserve your own food as well as teaching strategies to help you share your skills with others.

$475 INDIVIDUALS, $425 SEATTLE TILTH MEMBERS

---

**Basic Canning 101**

- Saturday, July 16; 10 a.m.-noon, GSC
- Thursday, August 11; 6:30-8:30 p.m., GSC

Enjoy your summer harvest all winter long! Learn what you need to know to start safely canning fresh food at home and expert tips to be a successful canner. You’ll leave with the skills you need to can jams, tomatoes, chutney, quick pickles and more. We will demystify food safety and introduce water bath canning and equipment. We will look at best foods for canning and recipes for getting started. Practice making jam with seasonal fruit and canning it.

Take a small sample home!

$45 INDIVIDUALS, $35 SEATTLE TILTH MEMBERS, $68 HOUSEHOLD PRICE FOR TWO ADULTS

---

**Make Homemade Pickles**

- Saturday, July 16; 2-4 p.m., GSC
- Thursday, August 18; 6:30-8:30 p.m., GSC

Preserve the harvest and add excitement to your table with homemade pickles! Join us for this class to learn how to make pickles beyond your garden variety cucumber dills. In this class we will demystify food safety, discuss different pickling methods, including canning and fermentation, learn how to make easy refrigerator pickles, and taste different styles of pickles, relishes and chutney. Cost of class includes supplies -- you will take a small sample home!

$45 INDIVIDUALS, $35 SEATTLE TILTH MEMBERS, $68 HOUSEHOLD PRICE FOR TWO ADULTS

---

**Intro to Pressure Canning**

- Saturday, August 6; 10 a.m.-noon, GSC
- Saturday, August 13; 2-4 p.m., GSC
- Saturday, August 27; 10 a.m.-1 p.m., GSC

Simple water bath canning is great for fruits and pickles, but do you long to take your preservation efforts farther? Learn what you need to know to start safely canning low acid foods like vegetables, beans, soups, meat and fish. In this class we will demystify food safety, discuss pressure canning equipment, learn the best types of food to preserve and look at recipes for getting started. We will demonstrate the process from start to finish with a dial gauge canner. It is strongly recommended to have taken Basic Canning 101 as a pre-requisite or have prior experience with water bath canning.

$45 INDIVIDUALS, $35 SEATTLE TILTH MEMBERS, $68 HOUSEHOLD PRICE FOR TWO ADULTS
Permaculture & Sustainable Landscapes
Create multi-functional, productive, healthy outdoor spaces.

Water Catchment: Harvest the Rain*
- Saturday, May 14; 2-4 p.m., GSC
Save money, prevent storm water pollution and collect rainwater for home use. Water is an important resource that falls from the sky for free. Unfortunately, most of the rain falls in the winter when we need it the least for irrigation. What if you could slow down or collect that water and save it for use during the dry summer? Topics include the water cycle, storm water pollution, bio-swales, mulch, rain gardens, rain barrels, cisterns, re-using grey water, permeable surfaces and green roofs. This class is a great follow-up to Drip Irrigation for Home Gardeners offered earlier in the morning.*
$36 INDIVIDUALS, $25 SEATTLE TILTH MEMBERS, $54 HOUSEHOLD PRICE FOR TWO ADULTS
*$65 FOR BOTH WATER CATCHMENT: HARVEST THE RAIN AND DRIP IRRIGATION FOR HOME GARDENERS (PAGE 4)

Secrets of Companion Planting*
- Saturday, May 21; 10 a.m.-noon, BGP
Did you know that some plants grow better together? Improve the health and productivity of your garden by choosing plants that serve as companions, rather than competition for resources. This class provides an introduction to the many ways that you can combine plants to maximize your harvest and make the most of your space. In this class we will examine companion planting through different types of plant relationships, discuss incorporating perennial plants into your annual food crops, explore the permaculture concept of plant guilds, and tour the garden to see real-life examples of companion planting, inter-planting and polyculture.
$36 INDIVIDUALS, $25 SEATTLE TILTH MEMBERS, $54 HOUSEHOLD PRICE FOR TWO ADULTS
*$65 FOR BOTH SECRETS OF COMPANION PLANTING AND ORGANIC PEST MANAGEMENT (PAGE 4)

Intro to Permaculture
- Saturday, July 9; 10 a.m.-1 p.m., MP
Go beyond organic gardening by learning the basics of permaculture to create a more holistic and sustainable garden! Learn how to use systems thinking to create efficient and abundant gardens that integrate human needs with the natural ecosystem. The goal of permaculture, short for “permanent agriculture” or “permanent culture,” is to minimize inputs and maximize relationships between plants, animals, environment and people. In this class we will introduce permaculture ethics and principles, see examples of techniques that can be applied in an urban environment, explore ways to integrate natural patterns and ecology into living systems, and practice designing a more holistic and self-sustaining backyard.
$36 INDIVIDUALS, $25 SEATTLE TILTH MEMBERS, $54 HOUSEHOLD PRICE FOR TWO ADULTS

Permaculture Design Course
- May 21-22, June 25-26, July 16-17, August 20-21, September 17-18, October 15-16; Saturdays, 9 a.m.-5 p.m. and Sundays, 9:30 a.m.-5 p.m.; South Seattle College
Permaculture uses ecological principles to create sustainable human communities that have the diversity, stability, and resilience of natural ecosystems. This intensive course is taught by Toby Hemenway, renowned author of Gaia’s Garden: A Guide to Home Scale Permaculture, the international best-selling permaculture book. Some of the main discussion topics are: permaculture foundations, pattern literacy, water cycles, soil structure and composition, ecosystems, built environments, energy, community dynamics, and social permaculture. This course is ideal for anyone who would like to explore the concepts of permaculture in-depth and in a community setting, people who’d like to practice these principles in their lives and communities or anyone who might like to obtain a two-year diploma or other advanced trainings in permaculture.
$1000 EARLY BIRD, $1150 FULL COURSE TUITION

Grow Fruit in Small Spaces
- Saturday, August 20; 10 a.m.-noon, GSC
Think you need an orchard or a big backyard to grow fruit? This class will show you how to use small spaces to grow tasty berries and fruits on bushes, vines and trees. Learn about special techniques for gardening in small spaces, using containers to grow small fruits, trees and shrubs, fruiting plants that do well in the Pacific Northwest climate, and resources for ongoing fruit tree care. This introductory class is lecture-based but will include a planting demonstration. Grow Fruit in Small Spaces pairs well with Intro to Permaculture and Container Gardening 101. Go home with lots of ideas about maximizing your space to grow delicious fruits!
$36 INDIVIDUALS, $25 SEATTLE TILTH MEMBERS, $54 HOUSEHOLD PRICE FOR TWO ADULTS

See CSI Bees: WildBeeSense, page 5.
Summer Garden & Farm Camps

Kids explore the world of insects, soil and plants while learning to tend a garden and grow food. We have guided adventures, make art, read stories, sing songs and have summer FUN! Each camp will be a unique experience for your child – sign-up for multiple camps and build upon the learning and fun.

1-2 year olds
Share the fun and excitement of gardening with your toddler! In these hands-on, interactive camps, we will explore the garden the way the little ones do best: looking for bugs, planting seeds, digging with real tools and tasting delicious plants and vegetables. Parents garden with their child guided by Seattle Tilth staff. Snack is included.
$25, $20 SEATTLE TILTH MEMBERS; REGISTRATION IS FOR ONE CHILD AND ACCOMPANYING ADULT
• Growing Yoga – GSC
  Wednesday, August 3; 10-11:30 a.m.
• Pollinator Party – GSC
  Wednesday, August 31; 10-11:30 a.m.

3-5 year olds
Explore the fascinating world of the garden in these 2-day camps for parents and preschoolers. Children and parents will enjoy time together outdoors while learning about insects, plants, and flowers. Parents can also learn about child-friendly herbs and veggies, and how to grow an organic garden with the whole family. Each session includes hands-on gardening, an art project, stories, our famous sun tea and yummy snacks! $50, $40 SEATTLE TILTH MEMBERS; REGISTRATION IS FOR ONE CHILD AND ACCOMPANYING ADULT
• Fantastic Farmers – RBLG
  Thursday & Friday, July 7 & 8; 10 a.m.-noon
• Worm and Bug, Cut a Rug
  Monday & Tuesday, August 1 & 2 – RBLG
  Thursday & Friday, August 4 & 5 – GSC
  10 a.m.-noon
• Leaf, Root, Flower, Fruit
  Mon & Tues; August 29 & 30 – RBLG
  Thurs & Fri; September 1 & 2 – GSC
  10 a.m.-noon

6-10 year olds
These weeklong day camps are a great way to have summer fun while learning about the fascinating world of the garden. Spend five days developing practical garden skills, exploring plants and discovering animals that live in Seattle Tilth’s community learning gardens. Learn about insects, vegetables, soil and worms, while playing games, making art, reading stories, singing songs and running through the sprinklers. Campers bring their own snack and lunch.
$250, $220 SEATTLE TILTH MEMBERS
• Garden Science Field Camp – GSC
  Monday-Friday, July 25-29; 9 a.m.-3 p.m.
• Garden Craft: Biomes – GSC
  Monday-Friday, August 8-12; 9 a.m.-3 p.m.

Support Seattle Tilth with a membership gift and receive discounts on classes today!

Parents: plan ahead for summer!

For more details and registration, visit seattletilth.org. Advance payment and registration required.
11-14 year olds
If your teens or preteens love gardening and working with younger children, this is for them! Junior counselors help set-up and clean-up garden activities, assist camp staff, lead small group activities and learn more about organic gardening. Weeklong placements offer all the fun of summer camp with the opportunity to develop leadership skills. Leadership training and orientation provided. $275, $245 SEATTLE TILTH MEMBERS
- Junior Counselor, Session 1 – GSC
  Monday-Friday, June 27-July 1; 8:30 a.m.-3:30 p.m.
- Junior Counselor, Session 2 – GSC
  Monday-Friday, July 11-15; 8:30 a.m.-3:30 p.m.
- Junior Counselor, Session 3 – GSC
  Monday-Friday, July 25-29; 8:30 a.m.-3:30 p.m.
- Junior Counselor, Session 4 – GSC
  Monday-Friday, August 8-12; 8:30 a.m.-3:30 p.m.

11-15 year olds
This camp will be a great way for youth to experience the garden at their own pace. We’ll have a lot of fun eating and cooking a bunch of fresh veggies, learning about advanced organic gardening topics, and exploring survival techniques. $275, $245 SEATTLE TILTH MEMBERS
- Urban Garden Uprising – GSC
  Monday-Friday, August 15-19; 9 a.m.-3 p.m.

Garden Educator Workshops
Teachers, parents and school garden volunteers, immerse yourself in outdoor teaching techniques and schoolyard gardening! Teachers receive clock hours.

Garden Educator Workshop: Summer Intensive
- Monday-Friday, July 18-22; 9 a.m.-3 p.m., GSC
Spend the week exploring Seattle Tilth’s Children’s Garden in Wallingford with our garden education experts, while learning how to grow an effective and robust schoolyard garden program. This unique weeklong intensive allows educators to immerse themselves in the organic garden classroom. Participants will learn about important components needed for a sustainable garden program and will join in hands-on activities outside in the garden, focusing on soil, compost and early spring gardening. Projects will include soil preparation, testing soil temperature and planting cool season seeds and transplants. No experience necessary! Experience the lessons from both a student and instructor perspective and leave feeling confident to teach in your outdoor space. $375 INDIVIDUALS, $325 SEATTLE TILTH MEMBERS

Garden Educator Workshop: Spring Seminar 2: Grow
- Saturday, May 14; 9 a.m.-4 p.m., GSC
Gain knowledge and experience in the various components of a successful garden based education program. We will examine the year round calendar, staffing, seasonal activities and lesson planning. Learn about volunteer management, fundraising, garden maintenance, community engagement, events and summertime garden care. Examine the role for a successful garden coordinator(s), discover ways to connect the garden to the classroom, learn how to develop a garden lesson on your own and explore how to use science kits (used by the Seattle Public School District) in the garden setting. Gain experience learning practical skills in a supportive and engaging environment that will inspire and empower you to share with your students. $75 INDIVIDUALS, $65 SEATTLE TILTH MEMBERS

Garden Educator Workshop: Spring Seminar 3: Eat
- Saturday, June 4; 9 a.m.-4 p.m., GSC
Prepare to manage your garden during the summer at the height of the growing season – an important part of year round garden planning for schools. In this seminar we will explore multiple models for summer garden management. Learn what to plant and how to sustain production for the beginning of the next school year. We will harvest and prepare a simple garden meal to share with one another, practice how to lead basic cooking activities with students, and ask the question: “How do we know students are learning?” and determine various ways to find answers. This session is a great way to think about incorporating what you’ve learned into a vision of success for your garden and students. $75 INDIVIDUALS, $65 SEATTLE TILTH MEMBERS
